

# How to Enable Vidulum's Non-Custodial Discord Tip Bot

1

Login to Vidulum App or create an account by visiting:

<https://wallet.vidulum.app>

If you are creating an account for the first time use a unique username, password, and pin.

The more complex the more secure your wallet will be.

Keep a secure backup of your login credentials.

Vidulum App is non-custodial and we cannot recover accounts.

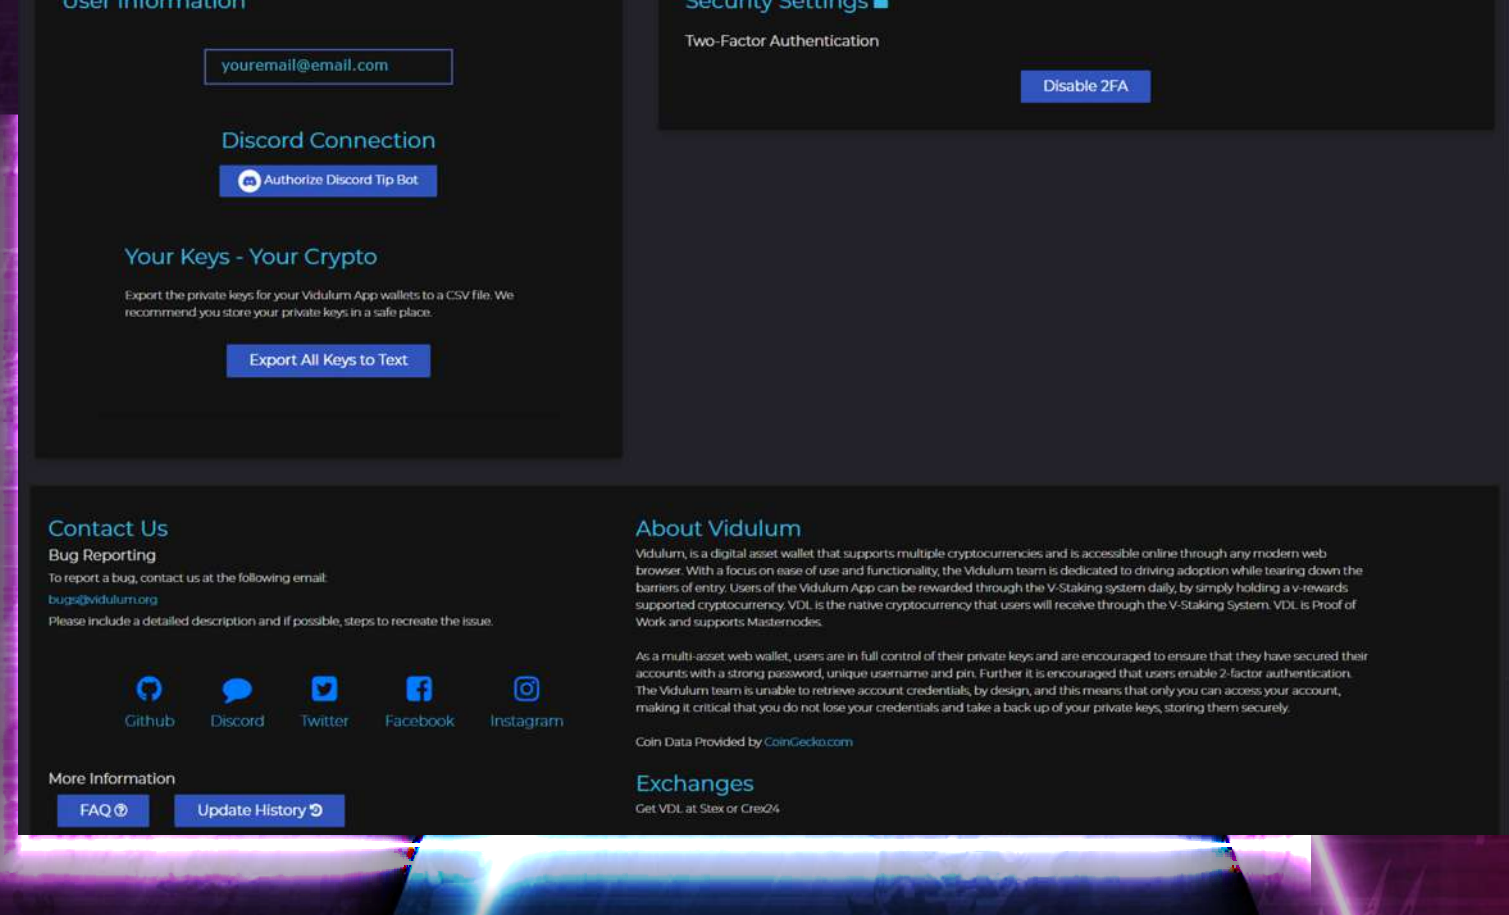

2

Navigate to the Settings page of Vidulum App by visiting:

[wallet.vidulum.app/settings](https://wallet.vidulum.app/settings)

or by clicking the menu item called Settings as pictured here:

Settings

Select:

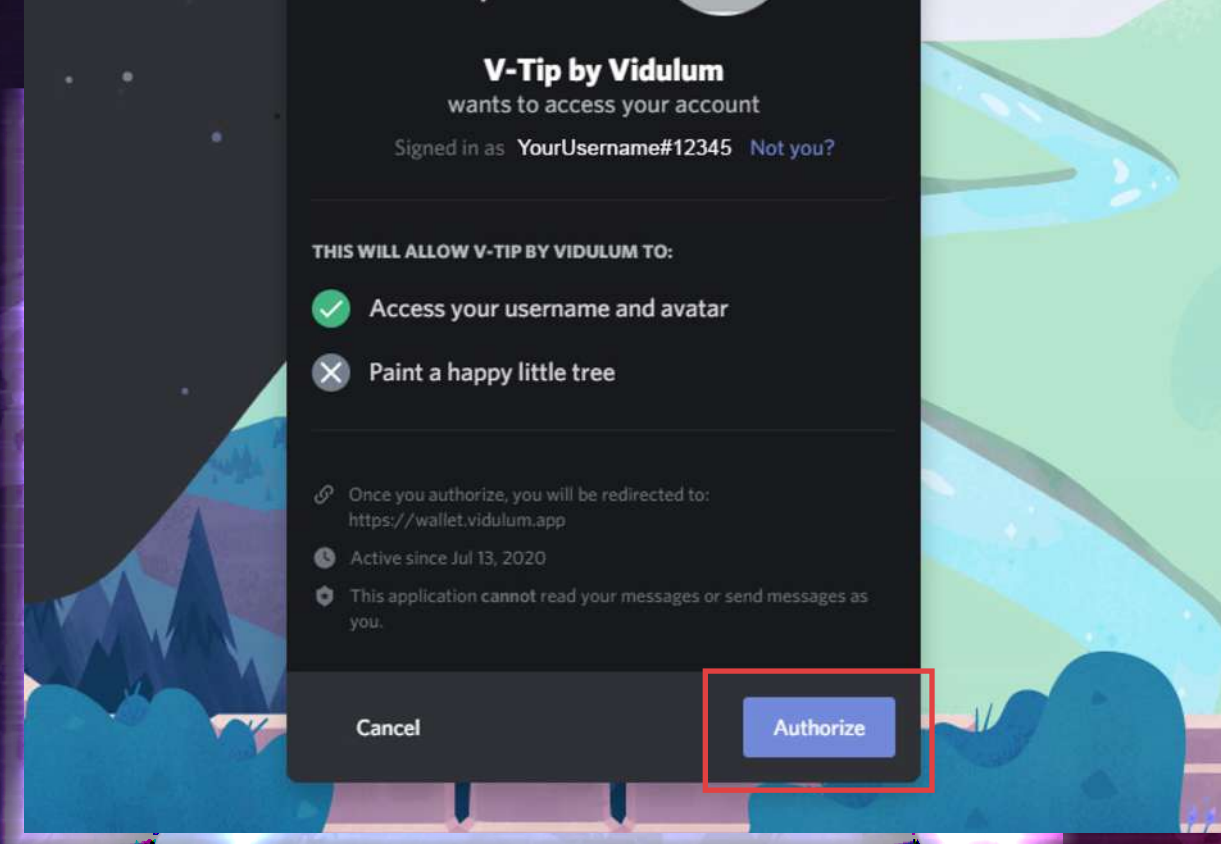

Authorize Discord Tip Bot

and you will be redirected to Discord.

3

Select "Authorize" to enable the Vidulum's Discord Tip Bot.

After you authorize you will be redirected to Vidulum App.

4

In the Discord channel where the Tip Bot is active, type "V-Status".

If the response from the Tip Bot is "Good" you have successfully authorized the Tip Bot and are now able to receive tips and rains from fellow users and admins.

Vidulum Services are provided as is. Before making an account with Vidulum App please ensure you have read and understand the [Terms of Service](#).

Vidulum builds non-custodial services to help with the adoption of Cryptocurrency and Blockchain Technology.
